

INDEX TO MINES, SOUGHS AND VEINS IN VOLUME 7

compiled by Peter Naylor

Abbreviations: M = mine
S = sough (not shaft)
V = vein
R = rake

Alternative spellings:

Certain names have altered with useage over the years. The latest most common spelling is indexed. The following are examples of some alternative spellings. The first name is that indexed usually.

Ashbury Crofts = Asheburye Croft Hubbadale = Hubberdale, Hubbodale
Bailey Croft = Bailliffe Ranter = Raventor
Cronstat = Kronstat (Stadt) Whale = Wheal
Hollihole = Hollyhole

Because of the numerous different spellings of the Welsh mines referred to on pps. 69-86, the modern and current names are used in the index. The alternative names have not been listed but they match phonetically. In certain instances a name may be given either coupled or separated, e.g. DOVEGANG or DOVE GANG. The index generally gives the coupled version.
